DOUBLE DOWN ON BOATING SAFETY THIS SUMMER

BY DOUG LEIER
DAKOTA EDGE OUTDOORS

A reader emailed recently to suggest that I should focus less in my columns on safety, as “it takes the fun away from being outdoors.”

I do always consider that “too much” factor when I write or talk about safety, but I’ve also seen enough injuries and dead bodies, especially early in my career when I was a game warden, to let one person or complaint change my tune.

Safety and habitat are two important topics to most of us who spend time in the outdoors. If you don’t have a safe fishing, boating or hunting trip, it doesn’t matter how many hours you spend on the pontoon, if you bring home a limit of fish or tag a trophy buck.

Likewise, without habitat, pike, perch, deer and pheasant numbers will struggle to provide the opportunities for creating special memories.

I grew up in the 1980s when recommendations for seatbelt use were turning into laws, and people were trying to adjust to the process of having

to click in before driving off. And who would argue about that? While it’s impossible to plan the best time to wear a seat belt or not, it just makes sense to wear one all the time.

The premise for wearing a personal flotation device while in a boat isn’t much different. While regulations don’t require mandatory wearing of PFDs for anyone age 11 or older on North Dakota waters, if an accident does happen, it’s usually too late for the PFD to do any good.

It certainly isn’t surprising that national statistics show failure to wear a PFD is the main reason people lose their lives in water recreation accidents.

North Dakota law requires all children ages 10 and younger to wear a personal flotation device at all times while in boats of less than 27 feet in length. State law also requires an approved PFD on board for older passengers, and all personal watercraft users must wear a life jacket, as well as anyone towed on skis, tubes, boards or other similar devices.

Water skiers and tubers

should wear a life jacket with four nylon straps rather than one with a zipper, because straps are stronger than zippers upon impact with water. Anglers or anyone paddling a canoe should opt for a PFD that is comfortable enough to wear for an entire outing.

Water skiers and tubers are reminded it takes three to ski and tube. When a person is towed on water skis or a similar device, an observer other than the operator is required on the vessel or the personal watercraft is equipped with a mirror on each side which provides the operator an unobstructed field of vision to the rear.

For a reminder on regulations that will help ensure safe boating this summer, the North Dakota Boat and Water Safety Guide is available online at the Game and Fish website, gf.nd.gov, by email at ndgf@nd.gov, or at a local Game and Fish Department office.

Leier is an outreach biologist with the NDG&F Dept.

ND GOVERNOR'S CUP BOUNDARIES

Fishing boundaries extend from the Highway 83 Embankment to the East and a line from Berthold Bay and Expansion Bay to the West. Boundary markers are placed in advance of the derby.

JUNIOR GOVERNORS CUP GIVE YOUTH A CHANCE

In addition to the North Dakota Governor's Walleye Cup, a juvenile version for youth 17 years of age and younger.

The Junior Governor's Cup is a one-day tournament held July 17 at Fort Stevenson. While it is a scaled-down version of the Walleye Cup, it is "not as competitive," explained Chad Trautman, park manager for Fort Stevenson.

"It's designed to give youth the opportunity to go out and fish," he said. "We want to provide something for them as well."

Registration begins the day of at 10 a.m. There is no fee for registration, other than the vehicle fee to enter the park, Trautman said.

July 17, 2021
10:00am to 1:00pm
Fort Stevenson State Park
 1252A 41st Ave NW
 Garrison, North Dakota 58540

*Open to ages up to 17. Join in the ND Junior Governor's Cup!
 Prizes awarded and only charge is the park entrance fee.*

There are also plenty of door prizes, as well as lunch for the families that participate. While the winners do not get the big cash payouts the Governor's Cup offers, Trautman said the winners would receive fishing poles or tackle boxes. "We focus on fun fishing and not so much on the competitiveness," Trautman said, adding that the

first, second, and third place winners would receive plaques.

In the past, the numbers of attendants have "gone up and down," Trautman said. "We've seen down to 40 and up to 120." He noted that they expect 100 people this year.

For more information, please call Fort Stevenson at 701-337-5576.

ESSENTIALS TACKLE BOX

• **Extra fishing line:** Lines get snagged, torn or snapped when reeling in a great catch, so extra fishing line is essential.

• **Extra hooks:** The traditional J-hook can snag many types of fish, but some anglers like a French hook. No matter which hook you prefer, make sure you have a variety of sizes on hand so you can switch if need be.

• **A set of fishing pliers:** Purchase pliers specifically made for fishing. Most come in aluminum so they will not corrode due to the elements. Also, if you're using braided fishing line, be sure the pliers have a cutter made for cutting braid.

• **Bobbers in various sizes:** Bobbers, also called floaters, help anglers know when a fish is biting. Round clip-on bobbers are popular and widely available. Slip bobbers will slide up and down the line, enabling anglers to get the hook into deeper water.

• **Sinkers:** The yin to the bobber's yang, sinkers are weights that help weigh down a worm or artificial lure to reach the right level to attract fish.

• **Fishing regulations/ruler:** A variety of rules govern when and where you can fish. Also, you'll need to know which size fish are keepers and which need to be tossed back. Keep a regulation ruler in the tackle box to avoid fines.

• **Pocket knife:** Keep a sharp knife for cutting lines and bait. Reserve a special filet knife for cleaning fish.

• **Selection of lures:** Research which fish you're angling for and then purchase a variety of appropriate lures. Some lures will attract a wide array of fish.

• **Stringer:** A stringer is a device that is used to hold several caught fish through their gills. It anchors to land and the other end with the fish on it is placed in the water to keep the fish alive until you're ready to pack up and go. It's a good alternative to a cooler or bucket filled with water.

• **Fishing license:** Many conservation or fish and wildlife departments require a license for fishing for anglers of a certain age. Be sure to have it on hand or you may be susceptible to fines or other penalties.
